Re: Recommendation for Clement Building Company

To whom it may concern:

I recently had the pleasure of working with Clement Building Company to manage the construction of my new dental office in Lakeview.

My business partner, Dr. David Scaffidi, and I purchased a lot in 2011 and began the process of constructing a 5,000 square ft. pediatric and orthodontic dental office. Unfortunately, just prior to beginning construction, our architect passed away. Keith and Kevin Clement were able to take over the construction phase of our project and manage it through to completion.

They were able to work with our contractor, as well as a multitude of engineers, to ensure that our construction plans were carried out as intended. They were also able to successfully manage changes that occurred throughout the construction process in order to meet fire marshal and other city building codes. In addition, their close oversight of the project allowed us to keep cost overruns to a minimum.

I cannot speak highly enough of their professionalism, integrity and work ethic. Their expertise ensured that this construction project was completed in a timely manner. I would highly recommend their services to a potential client considering a commercial construction project.

Sincerely,

Claudia Cavallino, DDS
Pediatric Dentist

David Scaffidi, DDS
Orthodontist
